

BOTTLE

CAPPING &

LOCKING MACHINE

TYPICAL APPLICATIONS

- Pharmaceutical syrups and glass vial locking
- Beverage, juice, and plastic bottle screw capping
- Chemical, cosmetic container tightly sealed threads
- Food oils, condiments, and sauce bottle production

FEATURES

- Universal compatibility with metal capping and plastic capping designs
- Precision height adjustments accommodating flexible bottle processing spans
- Smooth mechanical locking mechanism preventing container damage

TECHNICAL SPECIFICATIONS

Parameter	Specification Details
Brand / Series	Sepack's Bottle Capping and Locking Machine (JGS980 Series)
Model	BCL 30N
Height of Bottle	30mm – 340mm, 250mm (Without Neck)
Cap Outer Dia.	25mm – 35mm (Glass Bottle), 30mm (Plastic Bottle)
Plastic Bottle Neck Dia.	25mm
Producing Power	1000BTLS/H
Power Supply	220V 50HZ
Power	370W
